lives have been lost. Ten bodies have been iden ified and nine we have been unable to identify. We have heard reports of missing persons and received many telegrams inquiring about passengers on the train, but as we have been unable to identify all of the bodie it would be impossible to tell wat the number of fatalities will be."

The first arrivals on the scene of the disaster fou d the freight and pussenger ours in a blaze and small explosions occurring almost continuously. It was dengerous to go anywhere near the wreckage, although pitiful cries for help were heard.

Men and women clad only in their nightclothes were rushing about in all directions, while the dead and wounded lay strewn amid the wreckage. The few of the less seriously injured who were able to get away went to the Paxtang Electric Company plant. where a temporary hospital was established. Others wandered aimlessly about in the fields east of the tracks and were picked up there as they had fallen.

Many of the passengers were tossed over the embankment on the river side by the force of the explosion and were lying on the ground bleeding and moaning. They were carried to places of safety to await the arrival

of doctors and railroad relief trains. INJURED HURRIED TO HARRISBURG.

The first relief train arrived on the scene about 2:30 o'clock and all the injured were hurried to the Harrisburg Hospital, where every nurse and a number of extra physicians were in attendance. Three relief trains were sent from the city and each one bore back a load of dead and injured.

As the firemen gained control of the flames the work was started of getting the bodies from the burned cars. Every passenger car was completely destroyed and from nearly every one the charred bodies of men, women or children were taken. Four bodies were taken from beneath the passenger engine after it had been lifted up by a powerful wrecking machine. Many had been killed in their sleep. A number of bodies were reduced to

MANY SURVIVORS NAKED.

Eyewitnesses say that many of those who left the wreckage were absolutely without olothing, every stitch being swept from their bodies. It was to clothe these naked ones that the nearby residents stripped their beds of sheets, counterpanes and blankets and in some cases took articles from their own wardro bes. Sheets which were not required to clothe those who had lost everything were torn into bandages, slings and other necessary ap-

A temporary morgue was established in the parlor of the residence of Undertaker Samuel Speese on Chestnut street. Here the bodies were taken. There was not a whole body in the group. One identification had to be made from a mere trunk of

Another charred mass is almost legless. It resembles that of a small girl. On the stump of one leg, which is burned off at the knee, is a small garter buckleembedded in the flesh. She has not as yet been iden-

The shock of the explosion was heard for miles around. At Highspire windows were broken, and the people generally shaken up badly, but no serious damage was done. In Middletown the shock was terrific and many persons jumped out of their beds and fled to the streets under the

impression that there was an earthquake.

Across the river at New Cumberland and other places there was an upheaval that badly frightened the residents. Many persons when they saw the blazing wreck from over the river crossed in boats to the control of the cont scene, and did all they could to assist the

SENATOR KNOX'S DAUGHTER SAVED. Mr. and Mrs. Tindell, the latter the daughter of United States Senator Knox, were on their way to Pittsburg from New York They escaped with slight injuries caused by flying glass. Mr. Tindell telephoned to Gov. Pennypaoker of their condition, and the Governor immediately sent for Priva e

Secretary Wharton and directed that he take care of them.

Mr. Wharton was unable to find a cab and started to Steelton on horseback. On his way he met a cab, and taking possession of it he hurried to Steelton and brought the Tindells to the Executive Mansion,

where they were cared for by a physician. They were equipped with new clothing and departed for Pittsburg to-night.
Victor L. Crabbe case of his niuries about 11 o'clock at the Harrisburg Hespital. Norman Pitcairn of Philadelphia, a relative of Mr. Crabbe, arrived here at noon. Robert Pitcairn and Mrs. Crabbe arrived in Harrisburg the pitcairn and Mrs. Crabbe arrived in Harrisburg that the office of the pitcairn and Mrs. Crabbe arrived in Harrisburg that the office of the pitcairn and Mrs. Crabbe arrived in Harrisburg that the office of the pitcairn and Mrs. Crabbe arrived in Harrisburg that the office of the pitcairn and Mrs. Crabbe arrived in Harrisburg that the office of the pitcairn and Mrs. Crabbe arrived in Harrisburg the pitcairn and Mrs. Crabbe arrived in Harrisburg that the pitcairn and Mrs. Crabbe arrived in Harrisburg the pitcairn and Mrs. Crabbe arrived in Harrisburg that the pitcairn and Mrs. Crabbe arrived in Harrisburg the pitcairn and Mrs. Crabb ourg this afternoon from Pittsburg. THIEF CAUGHT AT WORK.

Clarence F. Opper of New York was among the fort nate ones who escreed serious injury. He joined the rescue party and lent aid relieving the suffering.

"We were removing the injured from the overthrown cars," said Mr. Opper, "when I noticed that one fellow would always lag behind. I watched him and saw him rifle the prockets of several upfortunates and in the pockets of several unfortunates, and in one instance he pulled off the watch and chain belonging to one of my fellow pas-sengers. I made a dash for the thief, but he saw me coming and disappeared in the darkness before I could lay ...y hands on him."

From the estimate of several passengers in the Pullman cars the actual financial loss in money and jewelry destroyed in the

loss in money and jewelry destroyed in the wreck is placed at \$20,000.

The Fennsylvania Baiircad officials here, underthe jurisdiction of Supt. W. B. McCaleb of the Philadelphia Division, have had a strenuous day settling with the many passengers injured and otherwise inconvenienced by the wreck. Miany of the passengers lost clothing and money and their losses were speedily made good. J. Francesconi, a broker of New York city, said that the car in which he was riding toppled over on its side with the first crash with the freight train. "I was cut about the head and the blood was streaming into my eyes. Itriedto get out of the car window, but could not reach it as the car was over on its side. not reach it as the car was over on its side. The second explosion occurred and the side of the car was blown out and I crawled of the car was blown out and I crawled through the splintered side to safety. Following this there were other slight explosions which, I understand, were caused by the gas tanks of the Pullman cars explicing."

Henry Silverman, a New York jewelry salesman, had a satchel in his berth which contained several thousand dollars worth of jewelry samples. Mr. Silverman was

of jewelry samples. Mr. Silverman was compelled to leave everything and flee. He could not find his bag in the darkness and had to see his jewels perish in the fire. Mr. Silverman was glad to get out as it

Mr. Silverman was glad to get out as it was. His home is in Chicago.

Foremest among the rescuing parties at the scene of the wrock was one headed by Vance C. McCormick, former captain of the Yale feetball team, a member of one of the wealth; at families in Pennsylvania and until recently Mayor of Harrisburg.

When nothing more could be done at the serve was the party went to the Harrisburg. scene, he and his party went to the Harris-burg he spital, where they turned in and worked like Trojans at making bandages and doing anything clas which could be done by any no except a trained physician or nurse. The party included the example. Mayor, Miss McCrmick, his sister, Mrs. John Y. Beyd, J. A. Austin Brandt, Sprner C. Gilbert, President of the Beard of Public Works, and his sen. Henderson Gilbert.

The wrecked express train was running

The wrecked express train was running as second section of No. 19 It has been the almost invariable custom to run the passenger section first and the mail and express section second. Last night was the first in a long time that the passenger section was run second.

Section was run second.

The mail section reached Harrisburg on time and was standing in the station when the dynamite began to explode. Had the trains been run as usual it woul have been the mail section that would have figured in the collision with the freight and many lives would have be a spared. the dynamite began to explode.

and married.

Paul Bright was a prominent civil engineer of the city.

The bodies of the dead arrived here this evening from Harrisburg on a special train.

SAM SHUBERT BADLY HURT. Will Recover-William Klein Injured, but

Doing Well-Savage Missed Train. Reports received here yesterday said that Sam S. Shubert, the theatrical manager, who was injured in the Pennsylvania Railroad wreck, was very badly hurt. Shubert was on his way to Pittsburg in company with William Klein, a lawyer of this city, and Abe Thalheimer, manager of the 'Fantana" company, one of the Shubert shows. With them on the train was John Reynolds, Blanche Walsh's manager, whose nome is in Pittsburg.

All of the party were injured, but Mr. Shubert's injuries were by far the worst and were so serious that for a time yesterday his friends had grave fears for his life. Mr. Shubert was burned all over the front of his body, from his head to his feet, and inhaled considerable smoke.

Last night word was received from his hysician, Dr. Leiser of this city, who hurried to Harrisburg on the first available train, that Mr. Shubert, although badly burned, would in all probability recover. His wife and two sisters left for Harrisburg at I o'clock yesterday afternoon when it was feared that he was fatally hurt.

Mr. Shubert and his party were going to Pittsburg for the purpose of completing negotiations for the lease of the Duquesne Theater there to Mr. Shubert. They had three lower berths in one of the sleepers. Klein being on the opposite side from Shubert and Thalheimer. Reynolds was in

the next car. The first that any of their friends here knew of the accident was when Thalheimer called up Manager Jacobs of the Shubert offices here at 6 o'clock yesterday morning and told of the wreck. At that time, he said, no trace had been found of Mr. Klein, and it was thought that he had been burned

ording to the version of the accident that Thalheimer gave, he was awakened by the explosion and was thrown out of h s erth. After this there was a second ex-closion, which wrecked the car. Thal-termer said that he broke two windows usine his berth and climbed out of the car. on top of which was riled a freight car. Shubert's berth was next to his, and he found the wincows of it broken. The car had caught fire and Shubert's berth was burning by the time that he got to him.

Shubert was dazed and was hauled through the window by Thalheimer. Reyealds just then came up, and he and Thalnolds just then came up, and he and Thal-heimer carries Shubert to some woods about half a mile from the wreck.

half a mile from the wreck.

Although Slubert was in great pain, he heaged them to go back and look for Klein.

This they did. They failed to find Klein and then carried Slubert into Harrisburg. and placed him in the Commonwealth Hotel. Two trained nurses and a physician were secured immediately. Mr. Shubert's own physician reached Harrisburg at 1 o'clock in the afternoon, and then this mes-

age came:
"Examination just made. Although very badly burned, doctors think no danger of serious results."

serious results."

This was posted in the Lyric Theater offices and behind the scenes to reassure the members of the "Fantana" company, in order that last night's performance might go off all right.

The family and friends of Lawyer Klein were frantic almost all day in spite of the fact that early in the morning his mother get a telegram saying that he had been hurt, but not seriously, and asking that his ort, but not seriously, and asking that his other bring some clothes to him, as all had had been burned up. In the early ts Mr. Klein's name was down both arrong the missing and the dead. It was not until late in the afternoon that a Harris-burg friend telegraphed that he had found Klein in the hospital with burns on the hands and face, but doing nicely. Mr. Klein is counsel for the Shuberts and

Mr. Klein is counsel for the Shuber's and for many other theatrical people, including Nixon & Zimmerman, Reginald de Koven and Ludwig Englander. The telephone in his office hardly stopped ringing yesterday. Henry W. Savage left here Wednesday evening for Pittsburg. His friends were afraid he was on the train, but it turned out that he had missed it by twenty minout that he had missed it by twenty min-utes and taken a later train. He turned up all right in Pitteburg yesterday, after inquiries had been made all over Harris-

inquiries had been made an over harms-burg for him.

The wrecked train had only three sleep-ers when it left here, but three more were added in Philadelphia. Almost every berth was taken on the New York sleepers, most of the passengers being visitors here re-turning home.

Of the New Yorkers who were aboard Of the New Yorkers who were aboard few returned home yesterday. One of those who did was Charles Rosenstock, a commercial traveller, of 217 East 115th street. He was met by a regiment of friends, whose congratulations he found hard to hear because he was almost totally deaf from the explosion. Rosenstock said that he had been tossed out of an upper berth and thrown down the embankment to the edge of the river. The whole train was ablaze when he looked up. He was assisted to a fire house used as a temporary hospital, supplied with clothes and sent home.

HAD TO CARRY DYNAMITE. Penusylvania Railroad Official Says Every

Precyntion Was Taken. PHILADELPHIA, May 11.-Charles M. Shraffer, passenger traffic manager of the Pennsylvania Railroad, said to-day:

was brought to a stop by the collision, the third Pullman coming to a standstill directly opposite the thirty-sixth car of the freight, which was loaded with dynamite.

Within a few moments of the preliminary wreck, or within a very short time thereafter, this dynamite exploded. Being directly opposite to the explosion, the third Pullman bore the brunt of the crash. It was right here that most of the damage was done. That is all known definitely as

"Has the company any excuse or defense to offer for carrying dynamite in such close proximity to its passenger trains?" Mr.

neaffer was asked. "As a common carrier, the Pennsylvania Railroad must transport dynamite when it is offered," Mr. Sheaffer answered. "It was carefully packed in cars which were plainly labeled dynamite on the sides."

Mr. Sheaffer added that the explosive was consigned to the Kerbaugh Construction Company, contractors at Columbia, Pa., for use on a new line which is being constructed for the Pennsylvania Railroad Company.

An official of the Pennsylvania Railroad's freight department here said yesterday that although recognized as a pretty dangerous thing to carry, dynamite had to be accepted and carried like any other freight. "Dynamite." he said, "is simply classed as slow freight and is treated just like so much coal, except that a sign is generally put on the car reading 'High Explosive.' As a common carrier a railroad has to accept it, but there isn't a railroad man who doesn't dread carrying it and who doesn't dread carrying it and who doesn't believe that a railroad should haul it on a special train of one car and an engine with a sign as big as the car telling what's on it and ought to charge a special rate to cover the expense of this."

MAY REGULATE TRAFFIC.

Commissioner McAdoo's Order Relating to Brooklyn Modified by Justice Gaynor.

The findings and judgment of Supreme Court Justice Gaynor in Brooklyn in the suit of Ahi Peace against Police Commissioner McAdoo for an injunction restraining the latter from carrying out the new traffic regulations were filed yesterday.
The decision is not so sweeping as was expected, affecting only the Borough Hall section and giving the Police Commissions. sioner ample power to regulate street traffic Justice Gaynor says in part:

Justice Gaynor says in part:

That the order or ordinance of the defendant is null and void, in so far only as it closes certain streets therein named, that is to the extent that it pupports to prohibit vehicles from going through the said streets and thence into Fulton street, Court street and Remsen street in Borough Hall triangle or square, except to load or unload goods or passensers, the said streets being so interfered with by the said ordinance or order being the block of Willoughby street leading into Adams and Fulton streets and the said square, the blocks of Myrtle avenue and Washington street leading into Fulton street and the said square, the blocks of Montague and Remsen streets leading into Court street and the said square, and the blocks of Court and Fulton streets leading into Remsen street and the said square.

The defendant and all under his authority are enjoined and restrained from enforcing the ordinance in that particular in which it is void.

is void.

This judgment does not restrain or interfere with the defendant and those under his authority in any other way, but leaves them free to keep order in the streets.

TORNADO'S SWEEP OF DEATH.

100 KILLED AT SNYDER, OKLA. AND OVER 200 INJURED.

Storm Spread Havee Throughout District -Rescuers, Hurrying to Stricken Town, Find Bodies in the Streets and Many Injured Pinned Under the Debris.

MOUNTAIN PARE, Okla., May 11 .- The town of Snyder, which was hit by a tornado soon after midnight this morning, is almost in ruins. It had 1,200 inhabitants, mostly Texans, and many of these were either killed or injured. It is now believed that the number of dead will not exceed 100 and that over 200 were injured, about 50 of them seriously.

The tornado's havoc was not confined

to Snyder. That the village of Olusee was also destroyed by the same tornado is believed, for all attempts to reach it by wire or telephone have failed. According to the course of the storm, it would have struck with full force upon the little village of frail frame dwellings.

Reports from despatches on the Santa Fé road say that the town of Quinlan, in Woodward county, was hit and that three persons are known to have been killed. Relief expeditions are getting to the

stricken town as fast as possible. The first to arrive was a trainload of physicians and nurses from Hobart. A second train containing a dozen undertakers, who were in conference at Hobart, has been sent to Snyder with a carload of coffins. At least four relief expeditions are sup posed to have reached Snyder to assist

the Hobart party. The Frisco railroad authorities are doing all in their power to assist in getting aid to the scene, and special trains, made up of freights and any odd rolling stock that can be secured, have been sent there. All the physicians and ablebodied men in Lawton, which is the nearest point of tele-

phone communication with Snyder, have gone on a work train over the Frisco road to the scene. Despatches from Quanah, Tex., indicate that all the section hands on the railroad have been ordered to join residents of that town and go to

the residents of that town and go to Snyder.

According to those who went to Snyder early to-day, forty residences and twelve stores were destroyed, while many other buildings were unroofed or badly smashed. Ten inches of rain fell.

The tornado came out of the southwest, and in its northeasterly sweep left its viotims strewn along the route taken by the first relief train. For miles before the volunteers reached Snyder they saw heaps of splintered building material. In the town itself, or what was left of it, they found masses of ruins.

Among the piles of clapboards, beams, tin roofs and brick the survivors were wandering almlessly. So great had been the shock to those who had escaped that they were of hardly any assistance to the rescuing party. Field hospitals were established in the totally razed section of the town north of the tracks of the Oklahoma City and Western Railway. This had been the business section, and many of the merchants lived in rooms over their stores.

Along the lines of the streets here many

Along the lines of the streets here many bodies, crushed and bruised almost beyond recognition, were found. The care of the dead, however, was forgotten in the face of the sufferings of the injured beneath the buildings, and the entire force of available men continued working in the

Residents at Hobart, thirty miles north of Snyder, say that from the reports brought in by men whose ranch houses were on the edge of the tornado's course, sheds, cattle and shingle and tin roofs were carcattle and shingle and thi roots were carried like feathers on the breast of a howling,
dust laden wind. All along the plains
when daylight came were masses of wreckage stretching fully fifteen miles from
the scene of the demolished town.
Snyder came into prominence eight
months ago, when its inhabitants waged
war on the men of Mountain Park. Both

towns were striving for supremacy in county affairs, and many were killed on both sides. In the face of the great ca-lamity the feud has been forgotten.

GOVERNOR APPEALS FOR AID. GUTHRIE, Okla., May 11.—Gov Ferguson p-night issued the following proclama-

on Wednesday night the town of Snyder, in Kiowa county, was swept by a destruc-tive cyclone. Many persons, probably 100 were killed, many wounded, numerous others rendered homeless and destitute. The territory has no provision for rendering financial aid. We will have to depend upon the good pec ple of Oklahoma to give reil'f to the distressed people of Snyder.

"This is sad for Oklahoma, and I am satisfied that our people will respond, and as far as possible relieve the unfortunate victims of this disaster as far as financial aid and kindness can do.

aid and kindness can do.

"Contributions should be sent at once care of Bank of Snyder."

ANADARRO, Okla., May 11.—A waterspout, accompanied by a destructive wind, hit the cistrict east of Hinton, in North Caddo county, this afternoon. Two bridges on Sugar Creek were swept away, growing crops were literally washed away and buildings unroofed and destroyed. Rain

fell in torrents for fifty minutes. STORMS BATTER INDIANA. Unprecedented Wind, Rain and Hall-Crops

Destroyed-Two Killed. INDIANAPOLIS, May 11,-Indiana was visited by a series of storms to-day which have rarely been equaled in number in a single day, and possibly never in the amount of rainfall, the continued high winds and almost general destruction of property. While many people in different parts of the State were injured only two deaths are reported to-night, and both of these from lightning. The winds came from the northwest, and in some localities the clouds were so heavy that the darkness of night prevailed for more than an hour.

While the storms swept over nearly all parts of the State, they proved most destructive in northern Indiana and espestructive in northern Indiana and especially in the counties of White, Pulaski and Miami, Cass, Clinton, Henry and Hamilton. In some places the rain poured down in torrents and was accompanied by heavy hail, which stripped fruit and shade trees of limbs and leaves. Barns and outhouses were blown down, dwellings unroofed, telegraph and telephone lines leveled with the ground, and many fields of wheat completely destroyed.

Edward Martin at Union City and Mrs. Benjamin Morehead at Newcastle were

Benjamin Morehead at Newcastle struck by lightning and killed. Re from all parts of the State indicate the damage will reach hundreds of thou-eands of dollars. A tidal wave at Michigan City carried the waters of Lake Michigan twelve feet above normal submerging the piers and carrying two houses from their foundations.

CHICAGO A STORM CENTER. Severe Wind and Lightning Throughout the Central West.

CHICAGO, May 11.-Death and extensive loss of property were caused by a severe wind and electric storm which swept over northern Missouri, Illinois, Indiana, Ohio, Wisconsin and Michigan to-day. Chicago was almost in the center of the disturbance. Lightning shocks electrically charged metal work in street cars. The rainfall was almost unprecedented in the suddenness of its downpour and brought injury and probably

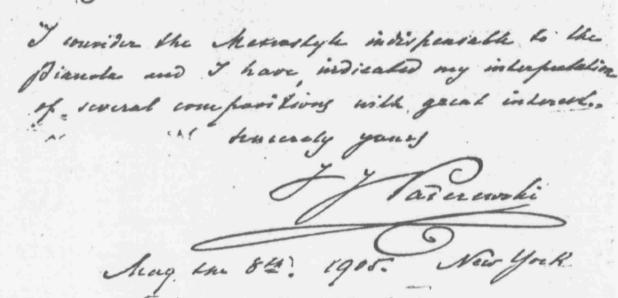

death to several.

Tical waves were observed at several points along the eastern shore of Lake Michigan, a sudden change in barometric pressure raising the water over the docks. Mrs. Charles Kellogg, 2844 Vincennes avenue, was probably fatally injured to-day when she was overcome by a shock on a Wentworth avenue electric car. It is supposed that she was struck by lightning. Paderewski

visits Aeolian Hall, New York's New Musical Center, and writes another letter of appreciation of

The Pianola

Jenklemen,

I consider the Metrostyle indispensable to the Pianola, and I have indicated my interpretation of several compositions with great interest.

LTHOUGH M. Paderewski was too ill to give the concluding Recitals of his Tour, he accepted an invitation to call at Aeolian Hall on the eve of sailing for home and hear some recent compositions played by the Pianola. He spoke enthusiastically of the artistic characteristics of the instrument, and upon his return to his hotel sent the above note to the Aeolian Company, which shows that the great Polish artist has not modified his original attitude in regard to the real merit of the Pianola and its most important feature-the Metrostyle.

It is noteworthy that not only Paderewski, but practically all the other recognized authorities, have gone on record as praising the Metrostyle Pianola. It is still more noteworthy that although there are now upwards of forty different Piano-Players on the market, the Pianola is the only one which these distinguished musicians have chosen to endorse and recommend to the public as worthy of serious consideration.

Anyone who contemplates investing the substantial sum represented by a Piano-Player, surely wishes to acquire the best instrument of its type. The Pianola is the standard o its cass, its popularity and sales being greater than all other Piano-Piayers put together. It has in the Metrostyle a feature which Paderewski describes as "indispensable" and which is not even approximated in any other instrument.

The Metrostyle Planols, \$250 and \$300; purchasable on moderate monthly payments.

THE AEOLIAN COMPANY, Aeolian Hall, near 34th St., New York.
